### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

The examiner notes for the record that applicants argue all of the rejections made in the Final Office action with respect to claims 75-82 and 115-118, but cancel the claims "to advance the prosecution of this application. Applicants also state that they "most like will pursue this subject matter in a separate continuation application." Then applicants state "for these reasons, this rejection should be withdrawn." The examiner withdraws no rejection. Applicants cancelled the claims upon which the rejections are based, thus there is no rejection left to appeal in this application. The claims remaining in this application are allowed because applicant cancelled all claims to which there was valid rejection. The examiner notes for the record that the cancelled invention was the linking group forcing the examiner to examine the original 90 claims in this application. There is and has not been an election of species or restriction separating the allowed invention and the cancelled invention of claims 75-82 and 115-118. Thus, applicants if they pursue the cancelled claims in a separate application do not have protection of 35 USC 121 from the allowed claims in this application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
